

LARGE ACCOUNT MANAGEMENT PROCESSSM

Strategic Planning for Protecting and Growing Key Accounts

Large Account Management ProcessSM (LAMP[®]) reveals how to best manage and grow strategic accounts by bringing the entire relationship into view. This process provides a road map for strategic customer relationships that have growth potential through the development of a one-to three-year plan to guide team selling and customer collaboration efforts.

LAMP[®] begins with an analysis of the company's current position within actual accounts to identify discrepancies and develop a shared vision between the buying and selling organizations. The program then delivers a process to document long-term plans for managing key accounts and allocating resources efficiently. As a result of adopting this process, account managers will craft strategies for managing cross-functional teams to clarify roles and responsibilities, boost collaboration, and ensure accountability.

The program also presents a method for enhancing relationships between the buying and selling organizations. Price sensitivity and competitive threats are significantly reduced by managing a customer's perception of the business relationship and mutually identifying the appropriate level of collaboration. *LAMP[®]* helps sales organizations objectively determine this perception and define goals to keep their position as trusted advisors.

Our organization regularly collaborates across departments to manage strategic accounts.

"LAMP[®] puts all of our key players on the same page and allows us to focus cooperatively on our goals and objectives. It helps us allocate resources to our focus investments and think strategically about stop investments."

"I shared the Gold Sheet with my customer and it provided us the opportunity to have an open conversation. In that chat I realized that I know more than I thought. And he realized how much I know and understand their business."
