

NEGOTIATE SUCCESS®

Win-Win Sales Negotiations that Strengthen Customer Relationships

*Negotiate Success*SM is a customer-focused process that improves a sales force's ability to reach a win-win outcome with customers. This program considers negotiations an essential part of every stage of the selling process from beginning to end.

The joint-venture approach builds trusting relationships with customers and strengthens the company's position for future opportunities. *Negotiate Success*SM provides a process to recognize and acknowledge both parties' perspectives to jointly create agreements that satisfy all critical interests.

*Negotiate Success*SM may be the right solution if your company is trying to:

- Avoid difficult negotiations that damage client relationships.
- Identify additional sales opportunities within client organizations by gaining more knowledge of the customer's goals.
- Offer valued solutions without succumbing to discount pressures.
- Determine acceptable prices with customers before the final stages of a sale.

Mutually Beneficial Negotiations

Concessions are often a part of securing sales opportunities in complex selling environments. The best practice is to ensure your organization is receiving something of comparable value to make the negotiation truly win-win. World-Class Sales Organizations were three times more likely to report a fair exchange of value in pricing negotiations.

When we give price concessions, we always get comparable value in return.

"The example I used in the workshop was a real world example and I was able to reach an agreement with the other party in part due to what I learned in the session."

- Salesperson, Financial Services

"I used the negotiation skills to re-do the contract of a partner that wanted to take the issue to court - through negotiation skills learned we were able to come to renegotiate the contract for a win-win."

- Manager, Staffing and Recruiting
